

# We're Gonna Make It

Twisted Sister

Been fightin' for so long  
Don't know which way up is  
Been stuck and ripped and burnt  
Till it feels like nothin'

Our time will come  
And when it's over and it's done  
Those fools are gonna know  
That we ain't bluffin'

We're gonna make it  
We'll reach the top  
We're gonna make it  
And then we're never gonna stop

The power of the people  
Ain't been showin'  
It's never what you know  
It's who you're knowin'

Sure, it ain't right  
But as the saying goes it's might  
That decides who stays behind  
And who'll be goin'

We're gonna make it  
We'll reach the top  
We're gonna make it  
And then we're never gonna stop

We're gonna make it  
We'll reach the top  
We're gonna make it  
And then we're never gonna stop

Oh oh oh, we're gonna make it  
Gonna make it to the top  
Ain't gonna stop until we drop  
Ah, drive hard boys  
Ha ha ha
