Been fightin' for so long Don't know which way up is Been stuck and ripped and burnt Till it feels like nothin'

Our time will come
And when it's over and it's done
Those fools are gonna know
That we ain't bluffin'

We're gonna make it
We'll reach the top
We're gonna make it
And then we're never gonna stop

The power of the people Ain't been showin' It's never what you know It's who you're knowin'

Sure, it ain't right
But as the saying goes it's might
That decides who stays behind
And who'll be goin'

We're gonna make it
We'll reach the top
We're gonna make it
And then we're never gonna stop

We're gonna make it
We'll reach the top
We're gonna make it
And then we're never gonna stop

Oh oh oh, we're gonna make it Gonna make it to the top Ain't gonna stop until we drop Ah, drive hard boys Ha ha ha
