

Is That You

Ty England

They had been together way too long for him to start again
So he does most of his living in the past
Round the house, he never says a word
'Til something makes him ask

Is that you tappin' my window pane?
Is that you or just a draft movin' that candle flame?
Something round here keeps my heart
From breakin' right in two, is that you?

In the dark he rises from a dream and takes a look around
Makin' sure there really isn't someone there
He could swear he heard her call his name
Quite as a prayer

Is that you takin' a step on that creaking stair?
Is that you quietly counting as you brush your hair?
Something round here keeps my heart
From breakin' right in two, is that you?
