

Even When She's Gone

Ty Herndon

There's a lipstick kiss on the rim of a starbuck's coffee cup
I can smell Chanel mademoiselle on the pillowcase when I'm waki
ng up
She's here but she ain't when she leaves she stays undercover a
ll over the place

And I
I've never seen nothin' like her in my life
She's got the gift that keeps on givin'
Like a long goodbye like a stuck in your head song
Singin' all day long can't be wrong
Her love's so right on
It'll stay with you even when she's gone

There's a picture on my phone I click on a million times a day
Lingers in my mind like a vintage wine so good I get a buzz on
the after taste
There she goes again makin' my head spin
She's the trip I keep a fallin' in

And I
I've never seen nothin' like her in my life
She's got the gift that keeps on givin'
Like a long goodbye like a stuck in your head song
Singin' all day long can't be wrong
Her love's so right on
It'll stay with you even when she's gone

She's the mystery to me that makes perfect sense

And I
I've never seen nothin' like her in my life
She's got the gift that keeps on givin'
Like a long goodbye like a stuck in your head song
Singin' all day long can't be wrong
Her love's so right on
It'll stay with you even when she's gone
