

Live This Lie

tyDi

I, I, I need you
I, I hate when I'm alone

This phase of want
Plastic and paint
Come on and make me out
If you want to
Without You here I'm not the same
Let go let go let go

I will control you
Now that I own you
Pushing insanity feverishly
I will control you
Now that I own you
I wanna I wanna I wanna, wanna live this lie

I will control you
Now that I own you
Pushing insanity feverishly
I will control you
Now that I own you
I wanna I wanna I wanna, wanna live this lie

I'm dirty when I turn off the lights
So maybe I'm your devil disguised
You bite my lip and then say goodbye
I miss you when you're gone

This phase of want
Plastic and paint
Come on and make me out
If you want to
Without You here I'm not the same
Let go let go let go

I will control you
Now that I own you
Pushing insanity feverishly
I will control you
Now that I own you
I wanna I wanna I wanna, wanna live this lie

I will control you
Now that I own you
Pushing insanity feverishly
I will control you
Now that I own you
I wanna I wanna I wanna, wanna live this lie
