How can I ever be defeated By someone who's already lost And how can I think I'll never make it When I know I've already won

I've already won, won, won, won, won, won
I've already won
I've already won
Oh oh oh, oh oh oh
Already won
Already won

Why should I ever fear the giant Just because he stands mighty and strong When I serve the God who's even bigger And to Him this giant is small

So tell me who can stand before us When we call on the greatest name Jesus Jesus Jesus That's the name that's mighty to save

I've already won, won, won, won, won, won
I've already won
I've already won
Oh oh oh, oh oh oh
Already won
Already won

Oh oh oh, oh oh oh Already won Oh oh oh, oh oh oh Already won
