

I Want More

Tye Tribbett

There's a place where I can go in You and can't be found
Lost in Your presence as I stand on Holy ground
A place in glory where I hear the angels sing
And lay before You in reverence to you King

I won't be satisfied until I reach new heights
I'll just keep climbing 'til I touch Your heart

'Cause I want more
I want more
I want more
I want more

There's a fire burning that I can't even describe
One that is burning to know more of you, oh God
So as I seek You, my journey's not complete
Until I find that place that You've designed for me

I won't be satisfied until I reach new heights
I'll just keep climbing 'til I touch Your heart

I want more
I want more
'Cause I want more
'Cause I want more

Just like the deer that pants the water from the stream
My soul is hungry and is thirsty for a drink
So fill my cup and let Your waters overflow
'Cause I won't let you go until you bless my soul

'Cause I want more
I want more
I want more
I want more

Unleash Your glory cloud as we release a sound
And let it fill this room 'cause we want more of You

Unleash Your glory cloud as we release a sound
And let it fill this room 'cause we want more of You

Unleash Your glory cloud as we release a sound
And let it fill this room 'cause we want more of You

Unleash Your glory cloud as we release a sound
And let it fill this room 'cause we want more of You

I want more
I want more
I want more
I want more

Gotta have more, gotta have more
We gotta have more, we gotta have more
Gotta have more, gotta have more
We gotta have more, we gotta have more

Gotta have more, we gotta have more
We gotta have more, we gotta have more
Gotta have more, we gotta have more
We gotta have more, we gotta have more

Gotta have more, we gotta have more
We gotta have more, we gotta have more
Gotta have more, we gotta have more
We gotta have more, we gotta have more

Gotta have more, we gotta have more
We gotta have more, we gotta have more
Gotta have more, we gotta have more
We gotta have more, we gotta have more

We gotta have more
We need You, we need You
We need You, we need You
We gotta have more

Can't make it without You
Can't make it without You
We gotta have more

I'll forever be chasing after You
I'll be chasing after You

I'll forever be chasing after You
I'll be chasing after You

I'll forever be chasing after You
'Cause we want more of You
