

# Far Away

Tyga

Just to see her (see her)  
But she's far far away  
And I'd do anything just to see her face  
But she's far far away  
Walk a thousand miles just to see her smile again  
Sittin' on a plane  
Reminiscing back when I made that mistake  
I wish it never ended with a heartbreak  
Now your heart broken, tears in ya face  
Ask myself why, looking at the sky  
If I could turn back I'd make it all right  
Praying that you better but its still stormy weather  
Don't wanna let go but the rain wont let up  
Now you gone, still thinking bout you everyday  
And I know feelings was hurt and you can blame me but  
I'm sorry for the games that I played  
But now it's too late  
And now she's'  
Now she's far far away  
And I'd do anything just to see her face  
But she's far far away  
Walk a thousand miles just to see her smile again  
It's cold putting up a fight  
Arguing back and forth through the night  
Regardless what I said and I don't most of it  
You know I really love you, this the realest goin' get  
It take time to realise what you really wanna know  
You was ready for it all but your feelings I ignored  
I know my fault, I should've gave more  
Now you're miles away and I'm miles on tour  
Now it's drums playing, crowd singing  
Light changing, wish you was here to witness all that  
It starts fading  
They say two wrongs don't make it right  
And I was wrong and now it aint right  
'Cause she's far far away  
And I'd do anything just to see her face  
But she's far far away  
Walk a thousand miles just to see her smile again  
Na na na nah  
If I could turn back  
If I could make it right  
I'd do just that  
If I could make it right  
I'd do it all tonight  
Hold you in my arms, with you I'd spend my life  
Na na na nah  
If I could turn back  
If I could make it right  
I'd do just that  
I'd do just that  
If I could turn back  
(Come back here again)  
'Cause she's far far away  
And I'd do anything just to see her face  
But she's far far away  
Walk a thousand miles just to see her smile again
