

Baby Don't Care

Tyler James

Shoulder to shoulder
But I was the shoulder
She was out making plans
It's always her way
On the highway
Tired she makes demands

I swear I never ever loved her no more
But now I see she's unsure
And every day's like a war
And if she love me then I never let her go
But she don't

My baby don't care for me
The way that I want her to
The way that I need her to
My baby don't care for me
The way that I want her to
The way that I need her to

Over and over I'm must've told her
I wanna be her man
She changing up like the seasons
There's no wild reason
I never know where I standing
I swear that I gave up the willing to fight
Put my heart on the line
If we could just make this right
And if she love me then I'll never let her go
But she don't

My baby don't care for me
The way that I want her to
The way that I need her to
My baby don't care for me
Wishing it in the stars
She's gonna break my heart

It's always the wrong place
And never the right time
Somebody tell me what should I do
To make her mine

My baby don't care for me
The way that I want her to

The situation and failed yeah I reasoning
Feels like I'm wasting and where I wanna be
Stop all decaying I changed and a love inside of me

My baby don't care for me
The way that I want her to
The way that I need her to
My baby don't care for me
Wishing it in the stars
She's gonna break my heart

My baby don't care for me
The way that I want her to
The way that I need her to
