

Heart Shaped Hole

Tyler James

Thank you my love my life
Thank you , you take the prize
Thank you for the worst goodbye
I'm too paralyzed for pain

Thank you for refusing guilt
You pushed the knife in up to dealt
Thank you for breaking every bridge we built
There's nothing left here to keep
There's nothing left here to feel

[Chorus]

Tell my heart right out with you
Tell the nurse about the roots
And I'm grateful you left nothing here to bruise
Cut my love right off the bone
Where my feelings used to go
There is nothing left beside a heart shaped hole

My love you, you closed my fears
And I'm so sought, I final tears
Oh it's a blessing born from the sky so clear
It leaves you so distant still
And I carved a hole big enough

[Chorus]

Tell my heart right out with you
Tell the nurse about the roots
And I'm grateful you left nothing here to bruise
Cut my love right off the bone
Where my feelings used to go
There is nothing left beside a heart shaped hole

If I could find just one memory intact
Baby I'll be here not wanting you back
But you may show the answer to everything
And I thank you my love

[Chorus x2]

Tell my heart right out with you
Tell the nurse about the roots
And I'm grateful you left nothing here to bruise
Cut my love right off the bone
Where my feelings used to go
There is nothing left beside a heart shaped hole
