

# Worry About You

Tyler James

I worry about you babe  
When your phone's not on  
I come by and you're not home  
I worry about you baby  
Worry about you

I worry about you babe  
When it's late at night  
You come back and looking fresh from a fight  
I worry about you baby  
Worry about you

& I aint sleeping at night  
I aint eating quite right  
I just, worry about you

Tell me what I'm supposed to say?  
Watch you throw your love away?  
I worry about you baby  
I worry about you  
Tell me what I'm supposed to do  
Expect me to go down with you?  
I worry about you baby  
Worry about you

I worry worry you  
And the ride you're on  
Roller coasters until dawn  
I worry about you baby  
Worry about you

I worry about you babe  
Cos the world you're in  
I so easily fit in  
I worry about you baby  
Worry about you

& we aint sleeping at night  
We aint eating quite right  
I just, worry about you

Tell me what I'm supposed to say?  
Watch you throw your love away?  
I worry about you baby  
I worry about you  
Tell me what I'm supposed to do  
Expect me to go down with you?  
I worry about you baby  
Worry about you

& I aint sleeping at night  
I aint eating quite right  
I just, worry about you

Tell me what I'm supposed to say?  
Watch you throw your love away?  
I worry about you baby

I worry about you  
Tell me what I'm supposed to do  
Expect me to go down with you?  
I worry about you baby  
Worry about you
