

Forget It All

Tynisha Keli

They say the first cut is the deepest
But the last cut through my soul
Baby you know you were my weakness
Without you I am not whole
Nothing else ever mattered in my whole life like you do
But now you got me wondering just who you are I'm confused

So now that I got one foot out the door it's like I'm...
I'm the one wrong cause I tried holdin' on for dear life
But now I...

I wanna I wanna, wanna forget it all
(Can you take away the pain from your mistakes)
I wanna I wanna, wanna forget it all
(Can you take away the pain from your mistakes)
And make it all just go away ay ay ayay
(Can you take away the pain from your mistakes)
And make it all just go away ay ay ayay
(Can you take away the pain from your mistakes)

Before I dive off of the deep end
Ima save myself from you today
Because I think I'm going crazy
I'm questioning if I should really stay
I should've known that you weren't ready to try to love me
So many nights I just laid here and cried couldn't breathe

So now that I got one foot out the door it's like I'm...
I'm the one wrong cause I tried holdin' on for dear life
But now I...

I wanna I wanna, wanna forget it all
(Can you take away the pain from your mistakes)
I wanna I wanna, wanna forget it all
(Can you take away the pain from your mistakes)
And make it all just go away ay ay ayay
(Can you take away the pain from your mistakes)
And make it all just go away ay ay ayay
(Can you take away the pain from your mistakes)

Ooohh I just wish oh how I wish I had amnesia.
I don't wanna remember, I just wanna forget
About the pain you caused on me.. Yeeahh..

I wanna I wanna, wanna forget it all
(Can you take away the pain from your mistakes)
I wanna I wanna, wanna forget it all
(Can you take away the pain from your mistakes)
And make it all just go away ay ay ayay
(Can you take away the pain from your mistakes)
And make it all just go away ay ay ayay
(Can you take away the pain from your mistakes)

Don't want to feel this pain no more...
