

Kill You Tonight (reprise)

Type O Negative

I got a pickaxe in the trunk of my car
I'll put it on the grinder to get it real sharp
There's an ugly green monster in my head
It won't leave me alone until you're dead
I called your house but you couldn't be reached
So took the D train to Brighton Beach
You're doing the thing with a brand new man
Checking out the stars screwing on the sand

Kill you
Kill you
Punishment
Kill you

You took some steroids and adrenaline
Finlandia vodka and hallucinagens
Mixed it with blood and orange juice
Liquid protein and ice cubes
Staring down at your sweaty embraces
Put my tool right through your faces
Well buddyboy hope you enjoyed her
Cause I am an equal opportunity destroyer
Kill you
I'll kill you tonight
