

My Girlfriend's Girlfriend

Type O Negative

Say "ah"
Say "ah".

It's no secret we're close
As sweaty velcro,
Like latex, fur and feathers
Stuck together
Now.

In their '62 'vette
Sharing one cigarette,
In a black light trance then
Go go dance
Then.

Go go trance
Then.

They keep me warm on cold nights
We must be quite a sight,
In our meat triangle
All tangled.

Wow.

My girlfriend's girlfriend
She looks like you,
My girlfriend's girlfriend
She's my girl too.

Her and me an her and she and me
An uncrowded couple
are we three?

Hey we don't care what people say,
When walking hand in hand down Kings Highway
Two for one today.

My girlfriend's girlfriend
She looks like you
My girlfriend's girlfriend
She's my girl too

My girlfriend's girlfriend
She looks like you
My girlfriend's girlfriend
She's my girl...
