Just pulled up to the club in a McLaren, got like "oh"
We hopped out and the girls followed us as we escorted to the top flo'
Got bottles in one hand, cash in the other
Stacks flying everywhere, need an umbrella
My black cards unlimited, keep on spending it, cause I got money to blow

After we leave this club, it's on
Yeah you already know
Got a lot of fly chicks tryna leave with me
So now I'm ready to go
I've got so many, I need an extra car
Don't worry about drinks, baby, I bought the bar
Models everywhere, don't need an Entourage
You know I do it big b-big, I hustle hard

I swear I make it look too easy
Suckas wishing they could be me
Naw, haters can't see me cause I'm too hot for TV
If you niggas don't believe me
Put it in your face like?
That attitude is so greasy, I make it look too easy

You can't get what I get unless you got a passport
Because my swag is so international
From Brazil all the way to Tokyo
I bet you haters thought I would never blow
Now I'm doing what bosses do
Calling out shots from the VIP and all the chicks wanna roll with me
Cause they know

After we leave this club, it's on
Yeah you already know
Got a lot of fly chicks tryna leave with me
So now I'm ready to go
I've got so many, I need an extra car
Don't worry about drinks, baby, I bought the bar
Models everywhere, don't need an Entourage
You know I do it big b-big, I hustle hard

I swear I make it look too easy
Suckas wishing they could be me
Naw, haters can't see me cause I'm too hot for TV
If you niggas don't believe me
Put it in your face like?
That attitude is so greasy, I make it look too easy

I wake up and? excellence
Good Lawd! This the New Testament
There's one life to live for dead presidents
So being Frank don't insult my intelligence
Get it? Meaning money, I'm a get it!
You love it don't ever own it, you rent it, you just a tenant

Forget it, I'm in the Guinness like Dennis, I'm just a menace
To society, Luda will pop eyes for the spinach
Yeah, I'm on that lyrical tip
Plus the coupe's all-white, it's a miracle whip
Then I'm in between the sheets, say I'm flipping the script
With two bad foreign woman: dual citizenship
