

Baby Dont You Change

Tyrone Wells

First time I saw you standing on the corner
Thought maybe I'd died and went to Heaven
But I got to thinking and baby, I knew better
'Cause I know that angels dont, angels dont wear high-
healed shoes
I don't need an angel
That don't fly around the blue
I'd be more than grateful
With a woman that was just like you

Sweet baby don't you change baby don't you change
Baby don't you change, baby don't you change a thing
No baby dont you change a thing
You don't need no angel wings
You look so good you make a grown man scream oh baby no, baby n
o
Don't you change a thing

First time I saw your face on a photograph
I thought maybe I was looking at the cover of a magazine
oh oh oh
But I got talkin' to you and baby, I knew better
'Cause I know most models don't, models dont know how to hold a
conversation
I don't need a model, you can let 'em
flirt around the page or the stage
I'd be more than grateful
With a woman that had your face

Sweet baby don't you change baby don't you change
Baby don't you change, baby don't you change a thing
No baby dont you change a thing
Got no love for a magazine
You look so good you make a grown man scream oh baby no, baby n
o
Don't you change a thing
No, no, no, no, no, no

Baby don't you change a thing
Baby don't you change a thing
Baby don't you change a thing
Baby don't you change, baby don't you change a thing
