

In Our Blood

Tyrone Wells

Don't wanna be caught asleep or left wondering.
If we gave all we could give,
If we were all we could be
Just wakin' up

We've all got our broken dreams and insecurities
But this love that's in our veins
Keeps changin' everything
We're wakin' up

Love is in our veins, it's in our blood
Runnin' wild and free, we're waking' up
We all wanna feel human
We all need to be loved
Oh love is in our veins, it's in our blood

I won't let you fall apart, I've seen your wild heart
Come on and take my hand
We're shinin' like the stars
We're wakin' up
Yeah we're waking' up

Love is in our veins, it's in our blood
Runnin' wild and free, we're waking' up
We all wanna feel human
We all need to be loved
Oh love is in our veins, it's in our blood

Hey!
Can you feel it runnin' through you
There's a fire in your eyes
Burnin' brighter, reachin' higher
Oh just let your soul ignite
I can see it in your eyes

Love is in your veins, it's in your blood.
Runnin' wild and free, we're waking' up
We all wanna feel human
We all need to be loved
Oh love is in our veins, it's in our blood
Oh love is in our veins, it's in our blood
Oh love is in our veins, it's in our blood
