

# This Love

Tyrone Wells

You're beautiful just as you are  
You don't have to hide your scars  
If you come to me  
I'll help you learn to see  
You're beautiful just as you are  
All I need  
Is you to come to me

Come to me and see how desperately  
I wanna pull you close, close to me  
Until I know you feel, live and breathe this love  
This love

Listen to the rhythm of my heart beat  
With every drop of blood you take away  
This love  
This love, this love  
This love, this love  
Oh, oh, oh, oh

You can make a great escape  
Leave your fears and walk away  
If you come to me  
The shadow of your past is history  
All I need  
Is you to come to me

Come to me and see how desperately  
I wanna pull you close, close to me  
Until I know you feel, live and breathe this love  
This love

Listen to the rhythm of my heart beat  
With every drop of blood you take away  
This love  
This love, this love  
This love, this love

The world is a sink  
Sometimes it swallows your dreams  
And you lose yourself  
You lose yourself

This anchor field is my love that is true  
And I'm waiting still  
And I'm waiting 'til

You come to me and see how desperately  
I wanna pull you close, close to me  
Until I know you feel, live and breathe this love  
This love

Come to me and see how desperately  
I wanna pull you close, close to me  
Until I know you feel, live and breathe this love  
This love

Listen to the rhythm of my heart beat  
With every drop of blood you take away  
This love  
This love, this love  
This love, this love
