

This Moment Now

Tyrone Wells

You light me up, you set the sun
You bring the crowd, down to one
I dream of you in the morning until the day is done
And then again when evening comes

All my life I've waited for this moment now
In your eyes finally I know I am found
So good to feel this way
Can't find the words to say
But I'll show you how
All my life I've waited for this moment now

You are the spring, you are the fall
My big debut, my curtain call
The world is covered in beauty
And through the cracks in the wall
I see your light behind it all

All my life I've waited for this moment now
In your eyes finally I know I am found
So good to feel this way
Can't find the words to say
But I'll show you how
All my life I've waited for this moment now

There's nothing I'd rather do
Then be here now with you

This moment, this moment, this moment now
This moment, this moment, this moment now

All my life I've waited for this moment now
In your eyes finally I know I am found
So good to feel this way
Can't find the words to say
But I'll show you, I'll show you
That all my life I've waited for this moment now
