

Wondering Where You Are

Tyrone Wells

Will you like to watch the sunrise?
Will you have blue or brown eyes?
What are the dreams you long to share
I hope you like Stevey Wonder
Are you afraid of thunder?
I close my eyes and say a prayer you're out there somewhere

I've been waiting all of my life for you
I've been wishing on every shining star
I've been watching out of my window
Wondering where you are
Wondering where you are

My heart's my only treasure
Been saving it for your pleasure
Can't wait to give my heart to you
We'll walk this road together
That leads us to forever
I close my eyes and say a prayer you're out there somewhere

I've been waiting all of my life for you
I've been wishing on every shining star
I've been watching out of my window
Wondering where you are
Wondering where you are

Too many nights alone
And this house won't be a home
Until I'm with you

And I've been waiting all of my life for you
I've been wishing on every shining star

I've been waiting all of my life for you
I've been wishing on every shining star
I've been watching out of my window
Wondering where you are
Wondering where you are
Wondering where you are
Wondering where you are
I'm wondering where you are
Wondering where you are
I'm wondering where you are
Wondering where you are
