

# Hellbound

Tysondog

Mad dog am I  
Cradle to grave  
Come live my lie  
Join my parade  
I'll never die when push comes to shove  
Fire in the sky  
Death from above

Seek and destroy, laser precise  
God deadly toy, cold and concise  
Feel no remorse, conscience or shame  
Self righteous force, shot down in flames

Fire up those birds of war  
Angels of death they roar  
Spit death from up on high  
I'm here to take your breath away and send you hellbound

Hellbound!  
Hellbound!  
Hellbound!

Mad dog am I, cradle to grave  
Come live my lie, join me and I'll send you

Hellbound!  
Hellbound!  
Hellbound!

Eyes open wide, death takes to flight  
Murder in mind, ghosts in the night

Hellbound!  
Hellbound!  
Hellbound!
