

Neon Nights

U.D.O.

When the day is done The night rolls in Lonely lovers come alive

Like a heartbeat In a world of sin Cruising around hungry eyes

Like a midnight train Going nowhere Fading dreams of the city

Penthouse beds Sweet love affairs Crimes of passion for the pretty

Man in blue on his beat Unseen faces in the streets

Neon nights - neon nights - endless flame Neon nights - neon nights - never change Neon nights - neon nights - endless flame Neon nights - neon nights

Red eye whisky And lady luck Have always been good friends

Their love is pain The same old stuff Always alone in the end

Could they be me and you Watching how the nights move

Neon nights - neon nights - endless flame Neon nights - neon nights - never change Neon nights - neon nights - endless flame Neon nights - neon nights

Neon nights - neon nights - endless flame Neon nights - neon nights - never change Neon nights - neon nights - endless flame Neon nights - neon nights

Neon nights, ...
