## Watchdogs

You try to close your ears And you try to close your eyes But the blasphemies keep coming Tempting you with lies

Give thanks for your protection Your watchdogs of the night Who hold the hungry wolves at bay And keep them out of sight, out of sight

You just don't understand it But it strikes a distant chord So you look for away of escaping And sanity's restored

Give thanks for your protection Your watchdogs of the night Who hold the hungry wolves at bay And keep them out of sight, out of sight

You focus your direction Cloak tightly pulled around But somewhere in the distance You can hear a haunting sound

Give thanks for your protection Your watchdogs of the night Who hold the hungry wolves at bay And keep them out of sight, out of sight

You're in danger of corruption And you're always running scared You cannot make decisions You're completely unprepared

Give thanks for your protection Your watchdogs of the night Who hold the hungry wolves at bay And keep them out of sight, out of sight
