We can drag you out of bed in the middle of the night Drive tanks along your street looking for a flight We can put you in a cell an dash away the key Make you stand against the wall torture chamber style The reason is simple, it's obvious to see We can shoot at you but you can't kill we Don't you see, don't you see, your not an army

The reason is simple, it's obvious to see Right is on your side but the media's with we Don't you see, don't you see, your not an army

The thing you must remember since these troubles first began Were supported by a tax paying population And if the rest of this world is against we It's a fact that the people of this country won't see

They can give you a trial by military
But you won't be sentenced politically
You'll be beat by other prisoners for political views
But you just another killer when we read it in the news
