## Ubiquitous Synergy Seeker

Don't mean to be technical  
Clear as the cristical  
I don't got a Glock  
I prefer to eat a popsicle  
Defying laws of gravity  
Opinions like a cavity  
You Like to talk shit I prefer originality  
Tighter than bone marrow  
Sharp like the arrow  
In Mexico, they smoke they ganja, wear the sombrero  
Bless the ones who copy me, respect the disc jockey  
Stole Park Place and Boardwalk  
So I always win monopoly

I got a secret you don't know  
I bring the sickness  
Fever taking hold  
You're gonna fall like a domino  
I got a band aid for your prose  
Witness the fitness  
Fever taking hold  
You're gonna fall like a domino

Cruising in the sloop  
Fruitalize the Froot Loop  
"Excuse me, waiter sir, there's a fly in my soupy-soup"  
So the pyros keep on lightin'  
Dirt and soap keep up the fighting  
Verbal contracts aren't worth shit  
We like to seal the deal in writin'  
Cruising in the Jetta, red like the poinsettia  
Got no double barrels: automatics, sawed offs, Berretta's  
Thought you was God-sent  
Respect my environment  
We'll be team of captains till the day of our enlightenment

I got a secret you don't know  
I bring the sickness  
Fever taking hold  
You're gonna fall like a domino  
I got a band aid for your prose  
Witness the fitness  
Fever taking hold  
You're gonna fall like a domino

Ladadadadadada...  
You're gonna fall like a domino  
You're gonna fall like a domino

I got a secret you don't know  
I bring the sickness  
Fever taking hold  
You're gonna fall like a domino  
I got a band aid for your prose  
Witness the fitness  
Fever taking hold  
You're gonna fall like a domino
