

Freakquency

Ubiquitous Synergy Seeker

Full moon, come soon
Ethereal girl, can't shine without you
I'm getting by
By getting high
Learning how to fly again without you

I'm not ready to walk away-ay-ay
I'm not ready to walk away

Some day
Oh, I'm gonna get you back again
Rushing through my head like oxygen
Never gonna let you go
And one day
Oh, I'm gonna make you understand
Need you in my blood like tryptophan
Always gonna love you so

New moon, come soon
Aquarian girl, I'm lost without you
I'm getting by
I'm getting by
Reliving every memory about you

Well I'm not ready to walk away-ay-ay
Still not ready to walk away

Some day
Oh, I'm gonna get you back again
Rushing through my head like oxygen
Never gonna let you go
And one day
Oh, I'm gonna make you understand
Need you in my blood like tryptophan
Always gonna love you so

Oceans of mind
Waves of alignment
Frequency shift
Primary assignment
With love and wonderment
Wonderment and love
It'll budge if we orchestrate a shove

Some day
Oh, I'm gonna get you back again
Rushing through my head like oxygen
Never gonna let you go
And one day
Oh, I'm gonna make you understand
Need you in my blood like tryptophan
Always gonna love you so

Always gonna love you so
Always gonna love you so
Always gonna love you so
Always gonna love you so
