

Crowd surfing in your sheets
I don't wanna wake up if you're not next to me
At times, it's hard to sleep
When I fear your love is gone
And you're not next to me
Crowd surfing in the sheets
Crowd surfing in your sheets

Come float into my room
Come slide into my room
No one's ever looked so bright
But I feel so bright
Then you came up for a second for some information
Fuck all your patience, I'm your favorite station
'Cause that's the ticket price
Come around mine tonight, 'round mine tonight
I got conversations for your sheets
I need you here with me
I need you here with me
I need you here

Crowd surfing in your sheets
I don't wanna wake up if you're not next to me
At times, it's hard to sleep
When I fear your love is gone
And you're not next to me
Crowd surfing in the sheets
Crowd surfing in your sheets
When I fear your love is gone

And you're not next to me, me, me
Makes a girl dream, dream, dream
All about the fun we had 'til the last bit
All about the fun we had 'til the last bit

Crowd surfing in your sheets
I don't wanna wake up if you're not next to me
At times, it's hard to sleep
When I fear your love is gone
And you're not next to me
Crowd surfing in the sheets
Crowd surfing in your sheets
When I fear your love is gone
