You wanna talk about it
let me talk about it
i've got the sound that kills
and there's nothing like it
i came to rock the party
you got to work your body
we're in the dark
no one can see
so i can touch your body

You know my name, right
i'm kind of famous now
i'm taking pictures with my fans
signing on tits now
i am a rockstar
and i party like one
in fact i partied like a rockstar before being one
push on the accelerator
i like when we drive faster
i want to feel the speed
this car's got what i need
no we ain't gonna stop
we're driving to the top
don't want to look back
i'm choosing the fast track

You can practice all you want just to get me
i ain't trying to test no one
i'm just trying to please me
sometimes what i do is wrong
sometimes i can reach the
higher state of living
'cause i'm making you feel free

You wanna talk about it
let me talk about it
i've got the sound that kills
and there's nothing like it
i came to rock the party
you got to work your body
we're in the dark
no one can see
so i can touch your body
