

## Feel It

UFO

I hear the jukebox on its full playback  
Her high-heeled shoes go clickity-clack  
Sweet, sweet Suzy dress way low  
Does a dance just to let you know  
(1) You wanna feel it, feel it  
Breaks your heart if you don't leave her alone  
Feel it, feel it  
It's one quick walk out in the danger zone  
(2) Oooh, it's a love that makes you burn  
Oooh, well a promise that you can see  
Ooh every head she can she turns  
Ooh (well that's love) (when you get that love to keep)  
The boys' in Danny's bar and Grill  
Swapping stories on the old cheap thrill  
But you pick up the air as she walks in  
She'll never talk much or try it again  
(1) Repeat  
(2) Repeat  
Every night she makes you dream a little more  
With a smile that opens every door  
In her eyes you'll see the promises  
One kiss tells everything

(2) Repeat  
Some girls you live with and some you need  
This one's the girl that's gonna make you bleed  
See her strut she moves from head to toe  
What you ain't got she'll never know
