

Name of Love

UFO

Living in a one-room
If I don't fall in love soon
Hangin' on the telephone
If I don't get your call soon

(1) Every night I spend alone
I've never been so low
And this room is closing in
If I die, who will know

(2) In the name of love
Is there someone left for me
In the name of love
Set this heart free

Dreaming of a playmate
If I don't fall in love soon
Strangers on a dark night
But it's all over too soon
