

# The Only Ones

UFO

Can you feel me, I'm so close I'm sure  
Anytime if you would call be right to your door  
Is it over, lost this time for good  
I never knew that I could be so misunderstood

(1) We are the only ones, left alone with this heart of stone  
We are the only ones with nothin' left but fools alone

Life's so empty, there's nothin' left for me  
Oh I wish you were back, baby you and me  
Last September, it's like yesterday  
You slipped through my hands, there's nothing more to say

(1) Repeat

I can feel the magic in your heart tonight  
I thought we had something oh so right  
Baby tell me do you still care  
'Cause this ain't no game of kiss and dare

[INSTRUMENTAL]

(1) Repeat twice then go into the instrumental fade out
