

## Too Young to Know

UFO

Well, I've stuck out in your street  
And I'm lookin' for some kind of halo  
When somebody says to me, hey boy  
She's too young to no no  
Well, I didn't make your time  
I never said you were mine  
Don't you think you show so I  
Guess I'll have to teach you how to roll  
Met you outside school  
When sure no one was lookin'  
And your teacher looks at me  
All his envy growin'  
Well, I didn't make your time  
I never said you were mine  
Don't you think you show so I  
Guess I'll have to teach you how to roll  
I said, take it easy baby  
You sure know what's showin'  
And I can't help myself  
Without your friends all knowin'  
Well, I didn't make your time  
I never said you were mine  
Don't you think you show so I  
Guess I'll have to teach you how to roll  
Well, I didn't make your time  
I never said you were mine  
Don't you think you show so I  
Guess I'll have to teach you how to roll  
You got a long, long way to go
