

## Another Case

Uh Huh Her

I'm better than the other one  
You're a harder chase  
You're fast against mine  
I'll beat it, you're the weaker one  
That's another case  
I'll taste the last line  
I will take you to the other side  
I will set you up  
You're fast against mine  
I will tear you from the other one  
It's a bitter race  
You're frail

I am stronger than the other ones  
I will set them off  
Don't try to fight me  
I will break you either way it seems  
It's a testimony  
To how this will end  
I'll stop it when I've finally won  
I'll take you down somehow  
I will stay till I'm the only one  
That's another case  
You failed

And you feel you've lost it  
And you know you lost it

Tell me I'm the only one  
Though it's not the same  
You're fast against mine  
Tell me I'm the only one  
It's a better place  
You're mine completely  
Tell me I'm the only one  
You give me hope somehow  
Tell me I'm the only one  
That's another case  
You feel so empty
