

# Life

Ulrik Munther

I will die someday  
But right now it feels quite far away  
I will die someday  
Let's hope it's not today

I know life is today  
Tomorrow can't wait  
My head want's to move on  
But my heart want's to stay

I'm just a kid with a guitar in my hands  
But I know something that some can't understand

'Cause we live and we die  
I do whatever I like  
Life is now, so let's try  
To live our whole life out  
And it starts now

My parents, they say  
Do all the fun tomorrow, do the boring stuff today  
But I say that's wrong  
I'll do the fun things today, and the other things can wait

'Cause we only live once  
So don't blow it, take a chance  
To do exactly what you want

'Cause we live and we die  
I do whatever I like  
Life is now so let's try  
To live our whole life out  
And it starts now

I love you, you love me  
That's the way it was suppose to be  
But now you left me, you hurt me  
But I guess that was just meant to be  
Yeah, I loved you, you loved me  
That's the way it was suppose to be  
But now you're with him, and not with me  
And I can't change that if that's how you feel

'Cause we live and we die  
I do whatever I like  
Life is now  
So let's live our whole life out  
And it starts now

I will die someday  
But right now it feels quite far away  
I will die someday  
Let's hope it's not today
