

New Dawn

Ultimatum

Lights are out, you can't see in the dark
Sound is off, you can't hear those wolves bark
Take my hand
I lead you, guide you, out of here
Blind, numb, deaf but still you fight the fear
I am your ears, your eyes, you know I'm here
Take my hand, I lead you through the valley of night
No fear, no more tears, I'm right by your side
Come see, the new sun is rising up
It wipes away the pain
New dawn to rise, to clear the darkness
New dawn to feel, to heal your pain
New dawn the birth, of new morning sun
New dawn with me, to live another day
Take my hand
I lead you, guide you, out of here
Blind, numb, deaf but still you fight the fear
Take my hand, I lead you through the valley of light
No fear, no more tears, I'm right by your side
Come see, the new moon is rising up
It wipes away the pain
Take my hand!!!
