## **Divine Love**

I hear the voices They sing to me sweetly Guiding my footsteps If only you believe You know this is divine love

I thought that love was over I thought that it was too late And just when I was gonna throw it all away I heard the voices of the angels say

Pre chorus I know how hard your way I know how much you've tried I know the struggles you're going through The father sends to you Up above

I was only half alive When I came to realize There was someone who'd be there for me I heard the melodies from heaven ring

I sing a song If it makes me feel happy inside I know the lord Showers me comforts me with divine love
