

I Don't Understand It

Ultra Naté

I don't under
I don't know
I don't under

Something strange happened to me
Found real love down on 43rd Street
Turned me out, put me in a trance
Psychedelic high, exotic romance
Made me lose all control
I feel you moving in real close
Don't even know your name
And I really don't care
Doing freaky things other people won't dare
It happened to me

I don't understand it
What you doing to me
I don't understand it
How you making me feel
You got me goin'
Ooh, ah, ooh, ooh, ah

Now don't you think I'm putting in work
Runnin' 'round town flipping up my skirt
It could happen to you, like it happened to me
Have you doing all these things that you won't believe
Made me lose all control
I feel you moving in real close
Don't even know your name
And I really don't care
Doing freaky things other people won't dare
It happened to me

I don't understand it
What you doing to me
I don't understand it
How you making me feel
You got me goin'
Ooh, ah, ooh, ooh, ah
You got me goin'
Ooh, ah, ooh, ooh, ah

I don't understand it
What you doing to me
I don't understand it
How you making me feel
