Better than Life
turning away, makes it alright ,
not looking, its out of sight,

blinded by a dream
looking so real,
seeing a sign, makes me wanna feel...

Better than life

better than life, feelin alright,
better than life, seeing what might,
better than life, its only a picture
better than life, i know its a whisper

better than life, feeling alright,
better than life, seeing what might.

better than life, its only a picture,
better than life, i know its a whisper

seeing both sides
and know what to do
looking to one favour of you.

taking the other, there is no doubt,

i will always Be...

better than life, feeling alright,
better than life, seeing what might,

better than life, its only a picture
better than life, i know its a whisper

better than life
