

Never Ever

Ultrabeat

I'll never ever ever, give you up
Your love will always be enough
And when I kiss your lips, I close my eyes
Let everybody see that you are mine

I'll never ever ever, give you up
Your love will always be enough
And when I kiss your lips, I close my eyes
Let everybody see that you are mine

I'll never ever ever, give you up
Your love will always be enough
And when I kiss your lips, I close my eyes
Let everybody see that you are, you are mine

On a picture, of you and me
Made of memories, for us to see
Feel the moment, deep inside, feel the love
Feel the love, for you and I

I'll never ever ever, give you up
Your love will always be enough
And when I kiss your lips, I close my eyes
Let everybody see that you are mine

I'll never ever ever, give you up
Your love will always be enough
And when I kiss your lips, I close my eyes
Let everybody see that you are, you are mine

I'll never ever ever, give you up
Your love will always be enough
And when I kiss your lips, I close my eyes
Let everybody see that you are mine

I'll never ever ever, give you up
Your love will always be enough
And when I kiss your lips, I close my eyes
Let everybody see that you are, you are mine
