

## La La Love

Ultraviolet Sound

I'm in la la love  
With the music, with the sound  
With the rhythm gettin' down  
With the lights on low

In the middle of the night  
I am humming with the guitars drumming  
Jam startin' my heart like vow

I'm in la la love  
I'm in la la love  
La la love  
I'm in la la love  
La la la la love

Lately I've been feeling nothing  
Just trying to believe in something  
Looking for what I feel is missing  
But all I had to do is listen  
To the melody, taking over me  
With nothing else could make my heart beat  
It won't stop now  
Turn it up and sing it out loud

I'm in la la love  
With the music, with the sound  
With the rhythm gettin' down  
With the lights on low

In the middle of the night  
I am humming with the guitars drumming  
Jam startin' my heart like vow  
I can't stop the melody  
It's taking over me

I'm in la la love  
I'm in la la love  
La la la la love

Can you feel the bass bumpin'?  
Does it get your blood pumpin'?  
This is no ordinary lovin'  
It's gonna get your body crackin'  
On the dance floor  
On your stereo  
In your car  
Or in your head phones  
Don't stop now  
Turn it up and shout it out loud

I'm in la la love  
With the music, with the sound  
With the rhythm gettin' down  
With the lights on low

In the middle of the night  
I am humming with the guitars drumming

Jam starting my heart like vow  
I can't stop the melody  
It's taking over me

I'm in la la love  
La la love  
La la love  
I'm in la la love  
La la la la love

I'm in la la love  
With the music, with the sound  
With the rhythm gettin' down  
With the lights on low

In the middle of the night  
I am humming with the guitars drumming  
Jam starting my heart like vow

I'm in la la love  
I'm in la la love  
La la love  
La la love  
I'm in la la love  
La la love  
I'm in la la love  
Love love  
Love love
