## **All in One Day**

## **Ultravox**

Strange how the change came all in a day Counting down and counting down And waiting for the minute We could touch a world Where every heart had love to offer

Heart-felt passion building around Feel the love, feel the love Sharing the strain From where apathy reigns For a dying world

All in one day
All in one day
When the hands reached out
Across an ocean
Everywhere

All in one day
All in one day
When the people came
And stood together
Everywhere

All in one day
All in one day
When the hands reached out
Across an ocean
Everywhere

All in one day
All in one day
When the people came
And stood together
Everywhere
Everywhere
