

# A Boy Brushed Red... Living in Black and White

Underoath

Can you feel your heartbeat racing?  
Can you taste the fear in her sweat?  
You've done this wrong  
It's too far gone  
These sheets tell of regret  
I admit that I'm just a fool for you  
I am just a fool for you

Here is where we both go wrong  
Tonight's your last chance to  
Do exactly what you want to  
And this could be my night  
This is what makes me feel alive  
Makes you feel alive  
Here is where we both go wrong  
So sign me up  
And toss this key  
'Cause for now we're  
Living in this moment  
And we both ignore the truth  
It's all over  
It's all over

I feel your heart rub against mine  
So take a breath and close your eyes, eyes

Your lungs have failed and they both stopped breathing  
My heart is dead and its way past beating  
Something has gone terribly wrong  
I'm scared, you're scared, we're scared of this  
I never thought we'd make it out alive  
I never told you but it's all in your goodbyes  
It's all in your goodbyes

Well look who's dying now  
Slit wrists sleeping with the girl next door  
I always knew you were such a sucker for that  
It doesn't matter what you say  
You never mattered anyway  
Never mattered anyway

In this moment that we both ignore the truth  
It's all over  
It's all over  
I feel your heart against mine  
So take a breath and close your eyes

Your lungs have failed and they both stopped breathing  
My heart is dead and its way past beating  
Something has gone terribly wrong  
I'm scared, you're scared, we're scared of this  
I never thought we'd make it out alive  
I never told you but it's all in your goodbyes  
It's all in your goodbyes

Don't shake, I hate to see you tremble  
Trembling you've lost your touch

Haven't you, I'm so addicted

Your lungs have failed and they both stopped breathing  
My heart is dead and its way past beating  
Something has gone terribly wrong  
I'm scared, you're scared, we're scared of this  
I never thought we'd make it out alive  
I never told you but its all in your goodbyes  
It's all in your goodbyes
