

# Bloodlust

## Underoath

I'm running around in here  
Spinning in circles inside my head  
But I retrace steps to retrace steps  
I just retrace steps to retrace steps  
I've learned to embrace the fear  
And nothing I believe will take me  
Past the edge I'm past the edge  
Past the edge I'm past the edge

And you left me no choice  
My hands are tied and I won't listen

Bloodlust is real  
I never thought I'd be right here  
But the bloodlust is real  
You can't make me feel alive  
I will be your animal  
You can be my cannibal

Everything is closing in  
Surrounded by the darkness  
And I dive right in and I dive right in  
I cannot swim but I dive right in  
Vision is blurred and I start to spin  
The walls come crashing down  
And I'm alone again, I'm alone again  
Alone again, I'm alone again

And you left me no choice  
The urge is real and you can't help me

Bloodlust is real  
I never thought I'd be right here  
But the bloodlust is real  
You can't make me feel alive  
I will be your animal  
You can be my cannibal

I wrote a letter that you'll never read  
I shed a tear that you'll never see  
I'm buried with these words that I never speak  
I have a darkness that you'll never see

Bloodlust is real  
Bloodlust is real

Bloodlust is real  
I never thought I'd be right here  
But the bloodlust is real  
You can't make me feel alive  
I will be your animal  
You can be my cannibal
