

The Best of Me

Underoath

In my mind you never left
Falling wasn't true
I had faith you flew past the sky
Straight through the night
And the sun reflects the night
Carrying the very same thing
In your heart that saved me
But maybe you've stopped listening
Falling on my selfish ways
It takes faith to see
So close your eyes and search
Deeper than just memories
I never stopped believing in you and me
Your leaving never changed things
I've been here for too long
To just walk away
