

# All About a Girl

Union J

We fell in love so quickly  
Her smile lit up the city  
Just like a million lights  
(Just like a million lights)  
Yeah, we burned out, we lost it  
Didn't know just what I wanted  
I wanna go back to that night

'Cause since that day  
(Ooh, ooh)

I've been searching all my life for you  
(You, you)

I've been all the way  
From Verona to California  
I tried to find you  
You're my world  
Nobody told me that my love story  
Would be all about, be all about  
Be all about a girl

It's all about a girl  
It's all about a girl  
It's all about, it's all about, it's all about a girl

Every place I've been through  
I think that I see you  
New York, London, LA  
And every melody of  
every song I sing to  
Always reminds me of you  
But still I wanna press play

'Cause since that day  
(Ooh, ooh)

I've been searching all my life for you  
(You, ooh)

I've been all the way  
From Verona to California  
I tried to find you  
You're my world  
(You're my world)  
Nobody told me that my love story  
Would be all about, be all about  
Be all about a girl

It's all about a girl  
It's all about a girl  
It's all about, it's all about, it's all about a girl

I've been all the way  
I was waiting all my life for you (ooh)  
I've been searching all the world for you (ooh)  
Everything's reminded me of you (ooh)

From Verona to California  
I tried to find you  
You're my world  
(You're my world)  
Nobody told me that my love story  
Would be all about, be all about  
Be all about a girl

It's all about a girl  
It's all about a girl  
It's all about, it's all about, it's all about a girl  
It's all about, it's all about, it's all about a girl
