

Feels Like Heaven

Uniting Nations

Oooh, it feels like heaven
When I'm next to you

Baby, every night it feels like heaven
'Cause I can live when I'm next to you
There's something special, let's bring it together
Tell me, can you feel it too?

Baby, every night it feels like heaven
Can we start it up, we'll see through
Just take my heart, kid, and beat it forever
Can you make my dreams come through?

Come through, come through, come through...

Some people go through all the nights
Tryin' to beat them, say we'll never be
It's the way that was happened to be

Didn't know I was looking for
'Till the day you walked through my door
Now, baby, who can ask for more?

You had something in your eyes
Like a star shining in the sky
There's now way I'd let you pass me by

Now everything feels right
I get a rush when I hold you tight
Together we'll make love tonight

Baby, every night it feels like heaven
'Cause I can live when I'm next to you
There's something special, let's bring it together
Tell me, can you feel it too?

Baby, every night it feels like heaven
Can we start it up, we'll see through
Just take my heart, kid, and beat it forever
Can you make my dreams come through?

Baby, come closer
Come close and touch
Oh, I love you so much

Baby, come closer
Baby, come close and touch
Yeah, I love you so much, so much, so much...

Baby, every night it feels like heaven
'Cause I can live when I'm next to you
There's something special, let's bring it together
Tell me, can you feel it too?

Baby, every night it feels like heaven

Can we start it up, we'll see through
Just take my heart, kid, and beat it forever
Can you make my dreams come through?

Baby, come closer
Come close and touch
Oh, I love you so much

Baby, come closer
Baby, come close and touch
Yeah, I love you so much, so much, so much...
