

# Artificial World

Unitopia

Centuries passing in the blink of an eye  
Minds caught in a cross-fire of confusion  
Mixed emotions as you realise  
That you're something less than human

We search the heavens for signs of life  
When there's abundance on earth  
A common problem, or lack of sight?  
A new beginning, rebirth...in this...

Artificial world  
Artificial life, artificial life  
Superficial face  
Molded by a knife, molded by a knife

Kids don't play with each other anymore  
They live their lives in seclusion  
Interaction to inactivity  
Have you reached the same conclusion?

I talk to my friend on the other side of the world  
Don't even know my neighbour  
I interface and communicate all day  
With cybernetic zombies in this...

Artificial world  
Artificial life, artificial life  
Superficial face  
Molded by a knife, molded by a knife

Face to face is not what it once was  
Have we lost much more than we've gained,  
In this artificial world?

From strength to strength or insecurity's chains  
Two steps forward, three steps back  
In this artificial world. (3x)

You know that I had to remodel that patient's entire face?  
And it was strenuous and very complicated.  
Plastic surgery at times seems to me to be...very complicated...

Artificial world  
Artificial life, artificial life  
Superficial face  
Molded by a knife, molded by a knife (2x)
