

Money and Run (feat. Nick Cave)

UNKLE

Here come the skillfull blows
Here come the puppet men with their fists
You know those backroom ghouls
They make it impossible to resist
I took the money
I took the money and i ran
Ran around the world..
Run little rabbit, run

I don't wanna go there
I don't wanna see
Every time i come down here
Somebody is bent on killing me
I don't wanna go there
With all them hungry mouths to feed
Every time i come down here
Somebody is bent on killing me

Somebody is bent on killing me

There goes the jigsaw man
Stuffing you in the pockets of his pants
We thought we'd make it safe and clear
But we never really stood a chance
We took it the money
We took it over everything we held true
Ran around the world
Yeah little rabbit, run

I don't wanna be here
Running through the rain
I could do it over man,
There ain't a thing that i would not change
All my friends are gone
Left me freezing on a beach
And every time i crawl up here
Somebody tries to take a piece of me

We spent the money
We spent it sailing down the drain
Every time i raise my head,
They kill me once
And they kill me all over again
I don't wanna go there
Oh i don't wanna see
Every time i come down here
Somebody is bent on killing me

Take the money and run
Round and round the world we go
Take the money and run
Round and round the world we go
Run little rabbit run
Round and round the world we go
Run away
Round and round the world
Round and round the world

Take the money
Take the money and run
