

# The Dog Is Black

UNKLE

Hold me down  
I need to be tied to the ground  
When I get this feeling  
I feel it just behind my back  
I call it a dog,  
I call it a dog  
The dog is black

The whole town needs us here to get down  
When I feel it crawling  
I feel it just behind my back  
Close me off my right and noble track  
Close me off my right and noble track

Will I ever get back?  
Will I ever get back?  
They don't haunt you, yes.  
Will I ever get back?  
Will I ever get back?  
They don't haunt you, oh.

Show me  
How small steps set me free  
When I know you're coming I stand up so I can fight back  
I call it a dog,  
I call it a dog  
The dog is black

Steer me through,  
I know you're stuck here too  
When I feel you coming I stand up so I can attack

Will I ever get back?  
Will I ever get back?  
They don't haunt you, yes.  
Will I ever get back?  
Will I ever get back?  
They don't haunt you, yeah.
