

Nevermind

Unwritten Law

Does she see me
When I'm waiting around
in the background fade out to black now
Does she hear me
When I'm calling her out
Or did I ever really never really open my mouth.

I never get what I want when I want to
I never do what I need when I need to
I never say what I mean when I see you
I guess you're never gonna know so
never mind.

I guess you're never gonna know so
never mind.

It doesn't make sense
This hesitation
I want it now but I'm patiently waiting.
I wanna taste it
I wanna make it make it
give it to me or I'm gonna take it now.

I never get what I want when I want to
I never do what I need when I need to
I never say what I mean when I see you
I guess you're never gonna know so
never mind.

I'd take you to the end of anywhere
And I'd say about anything just to get you there
I guess you're never gonna know so.

I never get what I want when I want to
I never do what I need when I need to
I never say what I mean when I see you
I guess you're never gonna know so
never mind.

I guess you're never gonna know so
never mind.

I guess you're never gonna know so
never mind.
